

What is claimed is new and desired to be protected
by Letters Patent is set forth in the appended claims:

Sub D1

1. A toothbrush assembly comprising:
 - a) a toothbrush having a handle with a bristle head thereon;
 - b) a holder to receive said handle of said toothbrush;
 - c) a stand to retain said holder in an upright position; and
 - d) a cover to fit over said bristle head of said toothbrush when not in use, so that said bristle head will remain sanitary and hygienic, in which said cover will keep airborne bacteria and dust from settling upon said bristle head of said toothbrush, will prevent a person from touching said bristle head with the fingers, to transfer ever present bacteria thereto and said cover in place will indicate that said bristle head is kept clean and is not to be touched.

2. A toothbrush assembly as recited in Claim 1, wherein said holder is in the shape of a body of an animate object.
3. A toothbrush assembly as recited in Claim 2, wherein said stand is in the shape of a pair of feet to match with said body of said animate object.
4. A toothbrush assembly as recited in Claim 2, wherein said cover is in the shape of a hollow head to match with said body of said animate object.
5. A toothbrush assembly as recited in Claim 1, wherein said cover is hinged to the top of said holder and includes a latch mechanism, so as to keep said cover in a closed upright position over said bristle head of said toothbrush.

6. A toothbrush assembly as recited in Claim 3, wherein said stand includes a base for said pair of feet to be mounted thereon.
7. A toothbrush assembly as recited in Claim 2, wherein said animate object is a standing super hero doll.
8. A toothbrush assembly as recited in Claim 2, wherein said animate object is a sitting bear cub doll.
9. A toothbrush assembly as recited in Claim 2, wherein said animate object is a sitting dog doll.
10. A toothbrush assembly as recited in Claim 2, wherein said animate object is a standing humanlike doll.

11. A toothbrush assembly as recited in Claim 10, wherein said humanlike doll includes arms and legs that are adjustable, so as to achieve many different positions, in which said toothbrush is not limited for removal in just an upright position, but in many different angled positions that can be ideal for people with limited dexterity.

12. A toothbrush assembly comprising:

- a) a holder being a handle of a toothbrush with a bristle head thereon;
- b) a stand to retain said holder in an upright position; and
- c) a cover to fit over said bristle head of said toothbrush of said holder when not in use, so that said bristle head will remain sanitary and hygienic, in which said cover will keep airborne bacteria and dust from settling upon said bristle head of said toothbrush, will prevent a person from touching said bristle head with the fingers, to transfer over present bacteria thereto and said cover in place will indicate that said bristle head is kept clean and is not to be touched.

Sub Out

13. A toothbrush assembly as recited in Claim 12, wherein said handle of said toothbrush of said holder is in the shape of a body of an animate object.
14. A toothbrush assembly as recited in Claim 13, wherein said stand is in the shape of a pair of feet to match with said body of said animate object.
15. A toothbrush assembly as recited in Claim ~~13~~¹², wherein said cover is in the shape of a hollow head to match with said body of said animate object.
16. A toothbrush assembly as recited in Claim 14, wherein said stand includes a base for said pair of feet to be mounted thereon.

17. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing female human doll.
18. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing rabbit doll.
19. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing mouse doll.
20. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing basketball player doll.
21. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing cat doll.

22. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing duck doll.
23. A toothbrush assembly as recited in Claim 13, wherein said animate object is a standing super hero doll.
24. A toothbrush assembly as recited in Claim 16 further including:
- a) said holder having a first end and a second end, wherein said first end contains evenly expanded vertical and horizontal members which take on the shape of arms which make up part of said body of said animate object, while said second end which contains evenly expanded vertical and horizontal members, take on the shape of legs and ankles of said body of said animate object;

b) said feet having a slot/opening to receive said second end, up to but not above said ankles of said handle of said toothbrush of said holder; and

c) said stand which contains said base also having a slot/opening to receive and give added support for said second end of said handle of said toothbrush of said holder.

25. A toothbrush assembly as recited in Claim 12, wherein said stand is detachable and connected to a free end of said handle of said toothbrush of said holder.

26. A toothbrush assembly as recited in Claim 12, wherein said stand is formed onto a free end of said handle of said toothbrush of said holder.
